# 560 + FIVE STAR REVIEWS

## *What teachers are saying...*

“**Great resource, detailed and interesting for students. Flexible** so that you can do more or less depending on how much time you have, and **easy to differentiate** when necessary.”

---

“I **absolutely loved this** bundle! It was **super informative** for the kids, the **videos were great**, and the activity sheets that the students could complete after reading the articles or watching the videos, were great!”

---

“This resource is **FULL of good stuff!** I was not expecting that at all! I thought it would be worksheets, and more like busy work, but **this resource truly helped my students become better and thoughtful humans.** I suggest that you spread these activities out throughout the month because it really has **A LOT of good stuff.**”

---

“I found these articles and information **informative and helpful when teaching Earth Day.** My students were **engaged and interested** in all of the information found within the resource!”
